About Me

I'm a skilled front-end developer with a strong expertise in JavaScript and HTML5. I have a passion for creating dynamic, user-friendly web interfaces and I'm dedicated to building seamless web experiences. With a deep understanding of web standards and best practices, I do best in crafting responsive and high-performance applications.

Experience

Uncommon.org
Scratch Instructor

At uncommon we volunteer to give back the skills obtain to the community. So one the skills we give is teaching students from different schools and level how to code simple game using scratch platform.

Education

2013 - 2016 Dzivarasekwa 2 High Ordinary Level	I passed my ordinary level including maths, english and scince
2017 - 2018 Dzivarasekwa 2 High Advanced Level	Continued with my studies at the same school doing sciences and managed to pass pure mathematics only
2020 - 2022 Harare Polytechnic National Certificate	Furthered my studies carrying on a hands on course called Automotive Precision and machining
2024 - current Uncommon.org Web Develpoment	Joined Uncommon in January which offered several courses. From their courses I chose to specialize in web development
August - October freeCodeCamp Responsive Web Design	I signed in on this online platform and completed all assignments then I received a certificate
